Mike Hou

Android Developer | Kotlin | Jetpack Compose | Google Play Applications

Cary, NC 27519 | 919-985-3895 | houhyi@gmail.com | Android App Portfolio

PROFESSIONAL SUMMARY

Android Kotlin developer and senior software professional with more than 25 years of application, database, and enterprise-system experience. Independent Android developer since March 2023; developed 10 Kotlin Android applications from March through October 2026 using Jetpack Compose, Room, and Material 3, with nine published on Google Play and one in review. Hands-on mobile work includes declarative user interfaces, local data storage, privacy-focused offline processing, camera and media applications, background recording, local Wi-Fi communication, search, backup, sharing, export, and Google Play Console publishing. Extensive prior experience in Java, Python, Oracle, SQL, Agile development, Git, GitHub, and production support.

TECHNICAL SKILLS

- **Android Development:** Kotlin, Jetpack Compose, Room, Material 3, Android application development, declarative UI, Google Play Console publishing
- **Mobile UI and Features:** Configurable user interfaces, themes, night modes, photo/video/audio capture and playback, screen recording, video editing, document scanning, PDF creation, calendar views, reminders, recurring events
- **Privacy and Local Data:** Secure local storage, offline and on-device processing, local Wi-Fi communication, private workflows without cloud services or user accounts where applicable
- **Application Delivery:** Product concept through implementation and Google Play release, store listings, privacy policies, one-time premium feature unlocks
- **Programming and Tools:** Kotlin, Java, Python, Git, GitHub, Jira, PL/SQL, SQL, T-SQL, JDBC

PROFESSIONAL EXPERIENCE

Independent Android Kotlin Developer | Published Application Portfolio

Cary, NC | Mar 2023 – Present

- Developed 10 Kotlin Android applications from March through October 2026 across travel, productivity, security, automotive, audio, home monitoring, measurement, calendar, and screen-recording use cases; published nine on Google Play, with one in review.
- Built declarative mobile user interfaces with Jetpack Compose and Material 3 and used Room for local application data.
- Implemented privacy-focused workflows using offline or on-device processing, secure local storage, and local Wi-Fi communication without cloud services or user accounts where applicable.
- Delivered multimedia capabilities including photo, video, audio, screen, and screenshot capture; front-, rear-, and dual-camera recording; live video and audio; two-way talk; background recording; and video trimming, cropping, and rotation.
- Developed application features including search and filtering, backup and restore, storage rotation, sharing and export, document scanning, PDF generation, calendars, reminders, recurring events, themes, and night modes.
- Prepared Google Play Store listings and privacy policies and configured one-time premium products for feature and usage-limit unlocks.

Environment: Kotlin; Android; Jetpack Compose; Room; Material 3; Git; GitHub; Google Play Console

Selected Google Play Applications

- **LullabyCam and RecPro** — Local Wi-Fi baby monitor and background audio recorder featuring live video and audio, two-way talk, private local media, search, storage management, sharing, and export.
- **eDog, RoadCam, and PixelRec** — Security camera, dashcam, and screen recorder featuring motion detection, front/rear/dual-camera video, background recording, screenshots, video editing, playback, and export.
- **PathLog and FormSnap** — Travel journal and document scanner featuring offline text recognition and translation, on-device processing, camera-based capture, image editing, backup and restore, and PDF creation.

- **ClockPro, PowerRuler, and CalendarPro** — Clock, measurement, and calendar tools featuring configurable interfaces, alarms and timers, augmented-reality measurement, calendar views, reminders, recurring events, themes, and photos.

Senior Systems Analyst | CURI Medical Mutual Insurance

Raleigh, NC | Sep 2014 – Mar 2026

- Developed and supported reliable enterprise application and data solutions using Java, Python, Oracle PL/SQL, and SQL in an Agile team using Jira, Git, and GitHub.
- Designed reusable database components and performed data processing and validation for policy, data warehouse, data mart, operational, analytics, and regulatory-reporting workflows.
- Built product-definition packages that configured insurance products across 47 states and inserted more than 3 million records to support underwriting requirements and market expansion.
- Administered AWS RDS for Oracle databases, including snapshots, backups, and production-to-development and test environment refreshes.

Environment: Java; Python; Oracle 11g, 12c, 19c; AWS RDS for Oracle; PL/SQL; Git; GitHub; Jira

Senior Web Technologist | Sanmina

Raleigh, NC and Huntsville, AL | Jun 2004 – Aug 2014

- Developed and supported Java- and SQL-based applications and automated ETL processes serving global supply-chain teams, manufacturing plants, and Oracle ERP.
- Translated business requirements into application logic, data rules, and reports and provided backend support to distributed development teams in India and Mexico.

Earlier Experience

- **Senior Programmer, UNIREX Corporation** | Huntsville, AL | May 2000 – Jun 2004 — Developed Java and JDBC web and inventory applications and maintained their SQL Server database.
- **Senior Programmer, Huayuan Investment Group** | Beijing, China | Aug 1996 – Jul 1998 — Developed and supported an Oracle-based futures-trading platform.
- **Programmer, First Grinding Wheel Factory** | Shenyang, China | Aug 1990 – Jul 1993 — Developed and supported a human-resources application.

EDUCATION

- **Master of Science in Computer Science**, University of Alabama in Huntsville, 2001 | GPA 3.8/4.0
- **Master of Engineering in Computer Engineering**, Sichuan University, Chengdu, China, 1996
- **Bachelor of Arts in Computer Application**, Xidian University, Xi’an, China, 1990

PROFESSIONAL TRAINING

- Toad for Oracle Fundamentals and Toad for Oracle DBAs Database Maintenance, 2014
- SQL Server 2012 Training, 2014
